MEMORANDUM FOR: Chief of Operations, OC  
Chief, Administrative Management Division, OC  
Chief, Communications Security Division, OC  
Chief, Foreign Networks Division, OC  
Deputy Director, Development & Engineering, OIT

25X1 FROM:   
Chief, Engineering Division, OC

25X1 SUBJECT: Enhanced Terminal Revised Project Plan

25X1 1. Attached for your signature is a revised copy of the Enhanced Terminal Project Plan. Please sign this copy and forward per attached routing sheet.

2. Section 4B has been revised to include preliminary costing for phase 2 and 3. Sections 5A and 5B were expanded to include the hardware configuration and all development milestones respectively. The task breakdown was completed under section 14 and more project related documents were added to section 17.

25X1 3. Any questions regarding the Project Plan should be directed to

MEMORANDUM FOR: Mr. B. F. Morriss  
Deputy Manager  
National Communications System

SUBJECT: National Security and Emergency Preparedness  
Telecommunications Requirements Analysis ☐

REFERENCE: OC-3722-85, dtd 24 Jun 85, Same Subject

1. The recent discussions and clarifications concerning National Security Emergency Preparedness (NSEP) telecommunications functions have proven beneficial. Our attention has specifically been drawn to enduring telecommunications requirements in the late trans- and early post-attack time period. (U)

Director of Communications

MEMORANDUM FOR: Mr. Kenneth B. Boheim  
Assistant Manager, Plans and Programs  
National Communications System

SUBJECT: National Security and Emergency Preparedness  
Telecommunications Requirements Analysis (U)

REFERENCE: NCS Analysis, dtd April 19, 1985, Same Subject

25X1 1. This letter responds to the referenced request for certain data concerning CIA emergency operations. As we agreed when I discussed this subject with you and the Deputy Manager, NCS on 9 May, we have confined our responses to certain domestic facilities identified in the enclosure.

25X1 2. Unfortunately, we are unable to provide the emergency plans and phone directories which the reference requested. Those documents are very tightly controlled in both collateral and compartmented control systems and would be released outside the Agency only by the Director of Central Intelligence and only in the most extraordinary of circumstances.

25X1 3. We hope these security constraints will not materially impede your effort. We recognize the importance of your task and support its objectives. As was done in this case, we will carefully consider each future request for information the NCS may need and will provide all information which can be released without breaching the statutes or regulations which govern the protection of intelligence sources and methods.

25X1 Downgrade to CONFIDENTIAL  
When Separated From Enclosure
